

Maximize the revenue potential of your website with Google AdSense

AT A GLANCE

- Maximize your website revenue
- Tap into the largest advertiser network
- Show ads users will find interesting and relevant

To learn more visit:
www.google.com/ads/getstarted

Google AdSense is a fast and easy way to monetize your content by displaying relevant and engaging ads on your website pages.

Maximize revenue by tapping into the largest advertiser network

- Gain access to an extensive pool of advertisers across many verticals.
- Advertisers' bids will compete in a real time auction to deliver the highest performing CPC (cost-per-click) or CPM (cost-per-thousand impressions) ads.

Enhance the user experience with relevant and engaging ads

Precision targeting: AdSense uses the strength of Google's targeting technology to provide ads that match the content of your pages and site audience.

Our technology scans the page, recognizes the content is about coffee and not about Java the programming language, and delivers targeted ads about coffee.

Ad innovation: Google supports a growing variety of ad formats (text, image, rich media, and click-to-play videos) to cater to the evolving web and user.
